

# DANNY WOODFORD

## Full-Stack/UI Developer

📞 908-907-8680

@ Daniel.woodford.g@gmail.com

📍 Greater New York City Area

## PROJECTS

### Spotify 3D music Visualizer

3D music visualizer that connects to your Spotify account

[Github](#) | [Demo](#)

- Utilized Three.js to create a 3d environment the user can move around.
- Mapped song analytics and features from Spotify's API and synchronize data to playback from any premium account.
- Built with react and has an rails backend to allow for future expansion.

### NOTFLIX

Netflix inspired web app is a library of free TV shows and movies found on youtube with a smart clean look.

[Github](#) | [Demo](#)

- Enacted vision of app with a Ruby on Rails frontend and backend with scroll sliders and user authentication.

### Labyrinth

Complete the maze before the fire catches up to you.

[Github](#) | [Demo](#)

- Ruby on Rails back-end and javascript front-end with CANVAS animated logo.
